Tuning Guide

Thanks for purchasing our product!

This tuning guide is intended to be a reference to use as a first set up with OneSails. Sailors are very much encouraged to try different settings in order to find that extra speed that we all are looking for.

Wind	Rake	Luff strops	Vang	Out haul	Cunningham
LIGHT	279-280 cm	5,4,3,2,2,3,4,5	not in tension upwind	sail need to have waves on the boom	boom up 1-2 circle, sail with some light stripes on the luff
MEDIUM	279-280 cm	2,2,2,2,2,2,2,2	light tension	sail need to have waves on the boom	boom up 1-2 circle, sail with some light stripes on the luff
STRONG	277-278 cm	0,1,2,3,3,2,1,0	in tension	pulled and strop on the clew 0 mm	in tension, in case of problem slightly open the sprit
